

NOTICE

It has consistently been observed, that despite of repeated reminders issued by the DCI to all the dental colleges for uploading the requisite mandatory details/informations like infrastructure, faculty and students etc., some of the dental colleges are still not following the directions of the DCI and not uploading the requisite mandatory details/informations pertaining to their dental colleges. As it is a statutory obligation. The Executive Committee of the Dental Council of India, in its meeting held on 31.8.2016, has taken a serious view in the matter and after discussion and deliberation at length, decided that the 15 days of time from the publication of the notice be given to the dental colleges for uploading the same who have not yet uploaded the informations/details pertaining to their colleges, otherwise the Council would have left no option to take stringent action against the erring colleges.
